E+ DigitalFashion Project

Andreja Rudolf, Tadeja Penko, Zoran Stjepanovič
*University of Maribor, Faculty of Mechanical Engineering,
Institute of Engineering Materials and Design*

Collaborative online international learning in digital fashion – DigitalFashion project will enabled education providers to deliver new digital training methods, allowing students and professionals to quickly master key technologies for the design and production of customized products in a virtual environment and fully make use of the knowledge.

DigitalFashion project will support the achievement of the general objective of the Erasmus+ programme to support, through lifelong learning, the educational, professional, and personal development of people in education, training, in Europe.
